SUMMARY

I am pursuing BTech in Computer Science.I am equipped with a diverse skill set that encompasses programming, software development, data structures, algorithms, and database management system.My passion for technology drives me to stay updated with the latest advancements in the field, and I am always eager to apply my knowledge to real-world scenarios. Collaboration and teamwork are integral parts of my approach to learning.As a B.Tech CSE student, I am eager to contribute my skills, creativity, and enthusiasm to tackle complex challenges in the tech industry.

EDUCATION

BTech, Computer Science   Graduating 2020-2024

Dr. A.P.J Abdul Kalam Technical University,   7.998 GPA

Ajay Kumar Garg Engineering College

Relevant coursework: Data Structures And Algorithms, Computer Networks, Object Oriented Programming, Database Management Systems, and Operating Systems

TECHNICAL SKILLS

Web Developer: HTML, CSS, ReactJS, NodeJS, MongoDB
Frameworks: jQuery, Express.js, Bootstrap
Programming: Python(Basics), C, C++, JavaScript
Tools: VS code, Github, PostMan, GitBash, Canva

EXPERIENCE

CodSoft, Work From Home: Web Development Intern   15 July - 15 August, 2024

- With this internship, I have achieved the real world expierience in developing the frontend websites.
- I have acquired a solid foundation in HTML, CSS, JavaScript, and various front-end libraries. I am confident in my ability to create visually appealing, responsive, and user-friendly websites.

Oasis Infobyte, Work From Home: Web Development and Designing Intern   1 July - 1 August, 2024

- During my internship, I have had the opportunity to work on several web projects, both independently and in collaboration with peers.
- As an intern at [Oasis Infobyte], I am committed to being a dedicated learner and a valuable asset to the team. I am eager to contribute my skills and creativity while gaining hands-on experience in a professional work environment.

ACADEMIC PROJECTS

YouTube Clone   April 2023

I have developed a You Tube Clone using HTML, CSS, JAVASCRIPT, And ReactJS.

Drum-Kit Game   September 2022

I have developed a game of playing drums with different sounds. I have used javascript for the functionality of the game and HTML and CSS for designing the UI of the game.

Spotify Clone   May 2023

I have developed the clone of SPOTIFY using HTML, CSS and Javascript

ToDo list   December 2022

I have developed a Todo List which helps to prioritize tasks, ensuring that important and time-sensitive activities are completed first. This focus on priority tasks can significantly boost productivity and efficiency

CERTIFICATIONS

BuzzOnEarth IIt Kanpur Hackathon   17-19 April

I have participated in this Hackathon and developed a waste segregation system

Completed Programming Fundamentals Using Python   28 December 2022 - 28 March 2023
